RESPONSE TO THE FINAL ACTION

Sir:

In paragraph 2 of the final Action of October 27, 2008, claims 1-5, 8, 10, 11 and 19 were rejected under 35 U.S.C. 103(a)a as being unpatentable over Berkson et al. in view of Zhu et al., Applicant's Admitted Prior Art (AAPA) and Nelson et al.

However, claims 1-5, 8, 10, 11 and 19 are patentable over the above cited references, as explained below.

In regard to Berkson

Berkson is directed to a method and system for distributing free media content via a network of the internet, wherein the media content files are bundled with advertisements that automatically expire and can automatically resurrect and/or update themselves.
